

# Child Friendly Safeguarding Policy

## What is Child Protection about?

All the adults around you think that your health, safety and welfare are very important.

In our Nursery, we respect our children and help to protect their rights.

We do our best to help children make good educational progress.

We teach children how to recognise risks in different situations, and how to protect themselves and stay safe.

## How will we try to protect children?

We try to make Nursery a safe place for children to learn in.

We want to make sure that children remain safe, at home as well as at Nursery.

We think it is important for our children to know where to get help if they are worried or unhappy about something.

## Need to talk?

You can talk to any adult in Nursery if you need to, they will **ALWAYS** be there for you – just **tell** them!
